INDEPENDENT AUDITORS' REPORT

The Honorable Mayor,
Members of the Board of Aldermen and
Members of the Board of Apportionment and Taxation
City of Derby, Connecticut

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Derby, Connecticut, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Derby, Connecticut, as of June 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis of Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Derby, Connecticut, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Derby, Connecticut's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Received

JUN 29 2025

Derby, CT Town Clerk's Office

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City of Derby, Connecticut's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Derby, Connecticut's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis information on pages 6 through 12 and the required supplementary information on pages 72 through 77 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The General Fund budgetary comparison detail, combining and individual nonmajor fund financial statements, and other schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements or to the basis financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

Received

JUN 29 2025

In our opinion, the General Fund budgetary comparison detail, combining and individual nonmajor fund financial statements, and other schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 28, 2024, on our consideration of the City of Derby, Connecticut's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Derby, Connecticut's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Derby, Connecticut (City), we offer readers of the City's financial statements this narrative overview and analysis of the financing activities of the City for the fiscal year ended June 30, 2024. All amounts, unless otherwise indicated, are expressed in thousands of dollars (\$000).

FINANCIAL HIGHLIGHTS

- The assets of the City exceeded its liabilities at the close of the most recent fiscal year by \$33.826 (*net position*).
- The government's total net position decreased by \$4,424.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balance of \$5,399, an increase of \$798 in comparison with the prior year.
- At the end of the current fiscal year, unreserved fund balance for the general fund was \$4,425 or 7.25% of total general fund expenditures.
- The City's governmental funds total long-term debt decreased by \$411 or .59% during the current fiscal year.
- The City's business-type activities total long-term debt decreased by \$869 or 6.43% during the current fiscal year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements — The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused sick leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, education, public safety, public works, and human services. The business-type activity of the City includes the Water Pollution Control Authority and the Parking Authority.

The government-wide financial statements can be found on pages 15-16 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS 2025

Fund Financial Statements — A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds — *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains fifteen individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund, the Library Endowment, the Field House Project, School ARPA/Roads 2015 funds, all of which are considered to be major funds. Data from the other eleven governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The City adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 17-18 of this report.

Proprietary Funds — The City maintains two proprietary funds. These *enterprise funds* are used to report the business-type activities in the government-wide financial statements. The City uses the enterprise funds to account for its Water Pollution Control Authority and its Parking Authority.

The proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary funds financial statements provide separate information for the Water Pollution Control Authority, which is considered to be a major fund of the City.

The basic proprietary fund financial statements can be found on pages 21-23 of this report.

Fiduciary Funds — Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statements can be found on pages 24-25 of this report.

Notes to the Financial Statements — The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 26-68 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS 2025

Received

Derby, CT Town Clerk's Office

Required Supplementary Information — In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information*. Required supplementary information can be found on page 70-75 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information on pensions. Combining fund statements and schedules can be found on pages 77-84 of this report followed by other schedules.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of City, assets exceeded liabilities by \$19,698 (Net position) at the close of the fiscal year ended June 30, 2024.

By far the largest portion of the City's net position reflects its investment in capital assets (e.g., land, buildings, machinery, equipment and infrastructure); less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

City's Net position (\$000)

	Governmental Activities		Business-type Activities		Total	
	2024	2023	2024	2023	2024	2023
Current and other assets	\$ 18,088	\$ 19,750	\$ 8,800	\$ 7,893	\$ 26,888	\$ 27,643
Capital assets	86,518	8,800	20,535	20,535	107,053	29,335
Total assets	104,606	28,550	29,335	28,428	133,941	56,978
Deferred outflows of resources	11,400	11,380	-	-	11,400	11,380
Long-term liabilities outstanding	\$ 68,730	69,141	14,643	15,513	83,373	84,654
Other liabilities	10,346	13,598	564	856	10,910	14,454
Total liabilities	79,076	82,739	15,207	16,369	94,283	99,108
Deferred inflows of resources	17,228	19,057	-	-	17,228	19,057
Net assets:						
Invested in capital assets, net of related debt	65,881	65,090	7,891	5,571	73,772	70,661
Restricted	584	584	-	-	584	584
Unrestricted	(46,767)	(48,881)	6,237	7,037	(40,530)	(41,844)
Total net position	\$ 19,698	\$ 16,793	14,128	\$ 12,608	\$ 33,826	\$ 29,401

At the close of the fiscal year ended June 30, 2024, the City is able to report positive balances in all categories of net position as a whole for its separate governmental and business-type activities. All categories in the prior year were able to report positive net asset numbers.

MANAGEMENT'S DISCUSSION AND ANALYSIS 2025

The government total net position decreased by \$4,424 in the current fiscal year. The majority of this decrease was related to increase Governmental expenditures offset against decrease WPCA expenditures.

Governmental Activities — Governmental activities increased the City's net position by \$2,904. Key elements of this decrease are as follows:

CITY'S CHANGES IN NET POSITION (\$000)

	Governmental Activities		Business-type Activities		Total	
	2024	2023	2024	2023	2024	2023
REVENUES						
Program revenues:						
Charges for services	\$ 3,025	\$ 1,874	\$ 5,220	\$ 4,572	\$ 8,245	\$ 6,446
Operating grants and contributions	24,030	22,159	-	-	24,030	22,159
Capital Grants and contributions	845	868	-	-	845	868
General revenues:						
Property Taxes	33,448	32,007	-	-	33,448	32,007
Grants and contributions not restricted to specific programs	5,245	4,613	-	-	5,245	4,613
Unrestricted investment earnings	398	251	248	38	646	289
TOTAL REVENUES	66,991	61,772	5,468	4,610	72,459	66,382
EXPENSES						
General government	15,512	15,718	-	-	15,512	15,718
Public works	5,299	6,353	3,948	4,499	9,247	10,852
Public safety	2,211	3,383	-	-	2,211	3,383

Health and welfare	3,818	1,617	-	-	3,818	1,617
Education	34,888	35,531	-	-	34,888	35,531
Capital outlay	638	647	-	-	638	647
Debt service	463	560	-	-	463	560
TOTAL EXPENSES	64,087	64,990	3,948	4,499	68,035	69,489
Increase (Decrease) in Net Position before transfers	2,904	(3,218)	1,520	111	4,424	(3,107)
Transfers	-	-	-	-	-	-
INCREASE(DECREASE) IN NET POSITION	2,904	(3,218)	1,520	111	4,424	(3,107)
Net position at beginning of year	16,794	20,012	12,608	12,497	29,402	32,509
NET POSITION, ending	\$ 19,698	\$ 16,794	\$ 14,128	\$ 12,608	\$ 33,826	\$ 29,402

Business-type Activities — Business-type activities increased the City's net position by \$1,520. The key element of this increase is as follows:

- The Water Pollution Control Authority revenues were significantly higher than expenses by \$1,520, due to steady revenues and slightly reduced expenses compared to the previous year.

FUNDS FINANCIAL ANALYSIS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

MANAGEMENT'S DISCUSSION AND ANALYSIS 2025

Governmental Funds — The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported a combined ending fund balance of \$5,399, an increase of \$798 in comparison with the prior year. This decrease is primarily caused by the General Fund and Other Governmental Fund surpluses of \$1,843 and \$234, respectively netted against a deficit in the Silo Fund \$1,278,759.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund balance of the unassigned fund was \$4,425. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total general fund expenditures of \$61,073. Unreserved and total fund balance represents 7.25% of total general fund expenditures.

The general fund balance increased by \$1,843 during the current fiscal year. Key factors in this decline are as follows:

- An increase in Property Taxes of \$556
- An increase in Intergovernmental revenues of \$1,500
- An increase in City Department revenues of \$1,011
- An increase in Investment income of \$217
- A decrease in General Government expenditures of \$982.
- A increase in Public Safety of \$325.
- A increase in Public Works of \$660.
- A decrease in Culture and recreation of \$37.
- An increase in Health and welfare of \$22.
- A decrease in Board of Education expenditures of \$113.
- A decrease in Board of Education grant expenditures of \$357, (offset against grant revenues)
- An increase in Capital Outlay of \$135.
- An increase in Debt Service of \$29.

Proprietary Funds — The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Net position of the Water Pollution Control Authority at the end of the year amounted to \$13,574 of which \$5,337 represents an investment in capital assets net of related debt. Net position of the Parking Authority at the end of the year amounted to \$554 of which \$554 represents an investment in capital assets net of related debt. The total increase in net position for the Business-Type Activities- Enterprise Fund was \$1,520. Other factors concerning the finances of the fund have already been addressed in the discussion of the City's business-type activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS

GENERAL FUND BUDGETARY HIGHLIGHTS

During 2023-2024 there the significant budget amendments between the original budget and the final budget were due to increasing anticipated revenues for intergovernmental grants and the related offsetting appropriations.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets — The City's investment in capital assets for its governmental and business type activities as of June 30, 2024, amounts to \$107,052 (net of accumulated depreciation). This investment in capital assets includes land, buildings and system, machinery and equipment, and infrastructure. The total decrease in the City's governmental activities investment in capital assets for the current fiscal year was \$2,599 or 1.828%, primarily due to depreciation of \$3,543. The majority of the purchases were for infrastructure improvements paid for with bond anticipation notes.

City's Capital Assets (\$000)
(Net of depreciation)

	Governmental Activities	Business-type Activities	Total
Land	\$ 6,552	\$ 595	\$ 7,147
Buildings and system	58,354	19,624	77,978
Machinery and equipment	2,348	315	2,663
ROU-Lease Assets	8	-	8
Infrastructure	19,256	-	19,256
	<u>\$ 86,518</u>	<u>\$ 20,534</u>	<u>\$ 107,052</u>

Additional information on the City's capital assets can be found in Note 7 of this report.

LONG TERM DEBT

Long-Term Debt — At the end of the current fiscal year, the City and WPCA had total bonded debt, bond anticipation notes and notes payable outstanding of \$24,370 and \$12,560 respectively. The City and WPCA also have capital lease obligations of \$200 and \$86, at year end, respectively.

Net Pension Liability — At the end of the current fiscal year, the City had total net pension liability of \$12,840. This obligation increased \$546 during the fiscal year.

Other Post-Employment Benefits — At the end of the current fiscal year, the City had total other post-employment benefit obligation of \$30,300. This obligation increased \$1,053 during the fiscal year.

MANAGEMENT'S DISCUSSION AND ANALYSIS

City's Outstanding Debt (\$000) General Obligation Bonds

	<u>Principal</u>	<u>Interest</u>
Governmental Activities		
Due in one year	\$ 1,317	\$ 566
Due in 2 to 6 years	6,569	2,332
Due in 7 to 11 years	6,636	1,383
Due in 12 to 16 years	4,848	350
Due in 17 to 20 years	-	-
	<u>\$ 19,370</u>	<u>\$ 4,630</u>
Business-type Activities		
Due in one year	\$ 810	\$ 478
Due in 2 to 6 years	4,050	1,882
Due in 7 to 11 years	4,040	1,048
Due in 12 to 16 years	3,660	284
Due in 17 to 20 years	-	-
	<u>\$ 12,560</u>	<u>\$ 3,692</u>

The City's governmental activities total long-term debt increased by \$410 (.59%) and business type activities decreased by \$869 (6.43%) during the current fiscal year.

The City maintains an "AA-" rating from Standard & Poor's for general obligation debt.

The current debt limitation for the City is \$232,092, which is significantly in excess of the City's outstanding general obligation debt. Additional information on the City's long-term debt can be found in Note 9 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS

- The unemployment rate for the County for the fiscal year increased to 4% vs. 5% in line with the prior year, consistent with the Connecticut unemployment rate.
- The Connecticut state government has been reporting an anticipated deficit for 2023-2024, which will translate into decreased State aid to the City.
- Inflationary trends in the region are comparable to the national indices.

All of these factors were considered in preparing the City's budget for the 2024-2025 fiscal year.

During the current fiscal year, undesignated and unreserved fund balance in the general fund decreased to \$4,425. The City has not appropriated any amounts of fund balance for spending in the 2024-2025 fiscal year budget.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Department, 1 Elizabeth Street, Derby, Connecticut, 06418.

TOTAL LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND FUND BALANCES	\$ 14,053,946	\$ 1,863,551	\$ 975	\$ 2,731,379	

Amounts reported for governmental activities in the statement of net assets

are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

86,517,792

Long-term assets are not available to pay for current-period expenditures and, therefore, are not reported in the funds.

2,342,299

Deferred outflows and inflows of resources related to pensions and deferred charges or credits on debt refundings are applicable to future reporting periods and, therefore, are not reported in the funds.

(5,828,536)

Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.

(68,729,801)

Net position of governmental activities **\$ 19,701,006**

See notes to financial statements.

CITY OF DERBY, CONNECTICUT
RECONCILIATION OF THE STATEMENT OF REVENUES
EXPENDITURES AND CHANGES IN FUND BALANCES OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
YEAR ENDED JUNE 30, 2024

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ 797,940
--	------------

Governmental funds report capital outlays as expenditures.

However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	(943,749)
---	-----------

Revenues that are reported as in the year revenues provide current financial resources to governmental funds.	764,165
---	---------

City pension/OPEB contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension/OPEB liability is measured a year before the City's report date. Pension/OPEB expense, which is the change in the net pension liability adjusted for changes in deferred outflows and inflows of resources related to pensions, is reported in the Statement of Activities.	274,840
--	---------

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	<u>2,010,134</u>
--	------------------

Change in Net Position	\$ <u>2,903,330</u>
------------------------	---------------------

See notes to financial statements.

NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

NOTE 1 — REPORTING ENTITY, DESCRIPTION OF FUNDS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The City of Derby, Connecticut, operates under a Mayor/Board of Alderman and Board of Apportionment and Taxation form of Government and provides services as authorized by its Charter including police and fire protection, education services, recreation and parks, health and welfare services and general administrative services.

The accounting policies of the City of Derby conform to generally accepted accounting principles as applicable to governmental units. Proprietary funds and similar component units apply Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless those pronouncements conflict with or contradict Governmental Accounting Standards Board (GASB) pronouncements, in which case, GASB prevails. A summary of the more significant policies are stated herein.

The City provides a full range of services including public safety, roads, sanitation, health, social services, culture and recreation, education, planning, zoning, and general administrative services to its residents. The accompanying financial statements confirm to accounting principles generally accepted in the United States of America as applicable to governments.

The reporting entity of the City of Derby, Connecticut includes all funds, account groups, agencies, boards, commissions and authorities over which the City presides. As required by generally accepted accounting principles, the financial statements of the reporting entity include those of the City of Derby (the primary government) and its component units. The component units discussed below are included in the City's reporting entity because of the significance of their operational and/or financial relationship with the City as blended component units.

The Water Pollution Control Authority (WPCA) of the City of Derby is an entity legally separate from the City and is governed by a ten-member board (Board of Apportionment and Taxation). For financial reporting purposes, the WPCA is reported as if it were part of the City's operation because its purpose is to provide sewer usage to the citizens of the City of Derby.

The Parking Authority of the City of Derby is an entity legally separate from the City and is governed by the Office of the Mayor. For financial reporting purposes, the Parking Authority is reported as if it were part of the City's operations because its purpose is to provide parking to the citizens of the City of Derby. The Parking Authority's operations have ceased during 2022.

The City of Derby Pension Plan is an entity legally separate from the City of Derby and is governed by an eight-member board appointed by the City's Mayor and Pension Charter. For financial reporting purposes, the City of Derby Pension Plan is reported as if it were part of the City's operations because its purpose is to provide retirement benefits to employees of the City of Derby.

Complete financial statements for the individual component unit may be obtained at the entity's administrative offices as follows:

Derby Water Pollution Control Authority
1 Elizabeth Street
Derby, Connecticut 06418

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

The Parking Authority of Derby does not issue separate financial statements.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities and deferred inflows of resources and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

The modified accrual basis of accounting is used by all governmental fund types, expendable trust funds and agency funds. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers property taxes as available if they are collected within 60 days after year end. A one-year availability period is used for revenue recognition for all other governmental fund revenues. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as fund liabilities when due or when amounts have been accumulated for payments to be made early in the following year. Certain indirect costs are included in the program expense.

Those revenues susceptible to accrual are property taxes, special assessments and interest revenue. Fines, permits and charges for services are not susceptible to accrual because generally they are not measurable until received in cash. The government reports the following major governmental funds:

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

- (i) *General Fund* — The General Fund is the general operating fund of the City government. All unrestricted resources except those required to be accounted for in another fund are accounted for in this fund. From this fund are paid general operating expenditures, fixed charges, principal and interest on long-term debt, and capital improvement costs of the City, which are not paid through a special fund.
- (ii) *Silo Fund* — are used to account for the federal and state grant income and related expenditures and cultural events.
- (iii) *ARPA/ Roads 2015* — is a capital project fund used to account for the use of ARPA funds for capital projects.

The government reports the following major proprietary funds:

- (i) *Water Pollution Control Authority* — The Water Pollution Control Authority accounts for the operations of the City's wastewater treatment plant. It is independent in terms of its relationship to other City functions. Its operations are financed from special assessments and direct charges to the users of the service.

Additionally, the government reports the following fund types:

- (i) *Pension Trust Funds* — account for the activities of the City's Public Employee Retirement System defined benefit pension plans, which accumulate resources for pension, benefit payments to qualified employees.

Interfund activity has been eliminated from the government-wide financial statements except for charges between the government's sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments.

Property Taxes — Property taxes are assessed as of October 1 and are levied on the following July 1. Real estate and personal property taxes are due in two installments on July 1 and the following January 1. Motor vehicle taxes are payable on July 1 and supplemental motor vehicle taxes are payable on January 1. Liens are filed on delinquent real estate taxes within one year.

Property tax revenues are recognized when they become available. Available means due or past due and receivable within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Property taxes receivable, not expected to be collected within sixty days of year-end are reflected as deferred revenue.

Proprietary Funds — All proprietary funds are accounted using the accrual basis of accounting. These funds account for operations that are primarily financed through user charges. The economic resource focus concerns determining costs as a means of maintaining the capital investment and management control. Revenues are recognized when earned and expenses are recognized when incurred. Proprietary funds distinguish operating revenues and expense from non-operating items. Operating revenues generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All other revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

Cash Equivalents — The City considers all highly liquid investments and those with original maturities of three months or less to be cash equivalents.

Investments — Investments are stated at fair value. Fair value is determined based on quoted market prices.

Inventories — Inventories are stated at the lower of cost or market using the consumption method on the first-in, first-out basis for the Board of Education School Lunch Program.

Interfund Transactions — Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursement to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditure/expenses in the fund that is reimbursed.

All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

The three types of interfund transactions and the related accounting policies are as follows:

1. Transactions to reimburse the fund for expenditures made by it for the benefit of another fund. These transactions are recorded as expenditures in the disbursing fund and as a reduction of expenditures in the receiving fund.
2. Transactions to shift revenue or contributions from the fund budgeted to receive them to the fund budgeted to expend them. These transactions are recorded as transfers in to and out of the respective funds.
3. Transactions to record equity contributions between funds. The receiving fund records such transactions as a transfer in and an addition to fund balance. The disbursement fund records the transaction as a transfer out and a reduction of fund balance.

Capital Assets— Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business type activities columns in government-wide financial statements.

Governmental Activities

Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the net asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment of the City are depreciated using the straight-line method over the following estimated useful lives:

Land improvements	20 years
Building and building improvements	25 – 50 years
Infrastructure	10 – 65 years
Machinery and equipment	5 – 20 years
Licensed vehicles	8 years

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

Right-of-Use – Leased assets
SBITAs

5 -15 years
2-5 years

In the governmental fund financial statements, capital outlay (assets) are reported as expenditures and no depreciation is recognized.

Leases and similar subscription-based information technology arrangement

The City is the lessee for noncancellable leases of equipment and property. The City is also a buyer of noncancellable subscription information technology arrangements (similar to a lease) for the right-to-use information technology hardware and software (SBITAs). The City has recognized intangible right-to-use lease assets (lease assets) and Subscription IT asset in the financial statements. The City recognizes lease and SBIT liabilities with an initial, individual value of \$5,000 or more.

The lease assets are measured at the start of the lease as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

At subscription commencement, the City initially measures the subscription IT liability at the present value of payments expected to be made during the subscription term. Subsequently, the subscription IT liability is reduced by the principal portion of subscription payments made. The subscription IT asset is initially measured as the initial amount of the subscription IT liability, less subscription payments made at or before the subscription commencement date, less any vendor incentives received at or before the subscription commencement date, plus the capitalizable implementation costs. Subsequently, the subscription IT asset is amortized into right-to-use amortization expense on a straight-line basis over the shorter of the subscription term or the useful life of the underlying hardware or software.

Key estimates and judgments related to leases include how the City determines the discount rate it uses to discount the expected lease and SBITA payments to present value, lease and SBITA term and lease and SBITA payments. The City uses the interest rate charged by the lessor/vendor as the discount rate. When the interest rate is not provided, the City uses its estimated incremental borrowing rate as the discount rate for leases and SBITAs. The lease or subscription term includes the noncancellable period of the lease. Lease and SBITA payments included in the measurement of the lease and SBITA liability are composed of fixed payments and a purchase option price that the City is reasonably certain to exercise. The City monitors changes in circumstances that would require a remeasurement of its lease and SBITA and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease and SBITA liability.

Lease and SBITA assets are reported with capital assets on the statement of net position.

Proprietary Fund Types — Property, plant and equipment owned by the Proprietary Funds are recorded based on cost at acquisition or if contributed property, at fair market value at the time of contribution.

Assets capitalized have an original cost of \$1,000 or more and over one year of useful life. Depreciation has been calculated on each class of depreciable property using the straight-line method. Estimated useful lives are as follows:

Buildings	20 – 50 years
Sewer System	30 – 50 years

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

Deferred Revenue — Deferred revenue arises when potential revenue does not meet both the “measurable” and “available” criteria for recognition in the current period. Deferred revenue also arises when resources are received by the City before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the City has a legal claim to the resources, the liability for deferred revenue is removed and revenue is recognized.

Deferred Outflows/Inflows of Resources — In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. As of June 30, 2024, \$11,399,640 were required to be reported as deferred outflows of resources of which \$3,078,288 was related to the Pension and \$8,321,352 was related to Other Post-Employment Benefits (OPEB). As of June 30, 2024, \$17,228,176 were required to be reported as deferred inflows of resources of which \$1,403,245 was related to the Pension and \$15,824,931 was related to Other Post-Employment Benefits (OPEB).

Long-Term Obligations — In the government-wide financial statements, and proprietary fund types in fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bonds payable are reported net of the applicable bond premium or discount.

LEASES — The City determines if an arrangement is a lease at inception. Leases are included in lease assets and lease liabilities in the statements of net position.

Lease assets represent the City’s control of the right to use an underlying asset for the lease term, as specified in the contract, in an exchange or exchange-like transaction. Lease assets are recognized at the commencement date based on the initial measurement of the lease liability, plus any payments made to the lessor at or before the commencement date based on the initial measurement of the lease liability, plus any payments made to the lessor at or before the commencement of the lease term and certain direct costs. Lease assets are amortized in a systematic and rational manner over the shorter of the lease term or the useful life of the underlying asset.

Lease liabilities represent the Town’s obligation to make lease payments arising from the lease. Lease liabilities are recognized at the commencement date based on the present value of expected lease payments over the lease term, less any lease incentives. Interest expense is recognized ratably over the contract term.

The lease term may include options to extend or terminate the lease when it is reasonably certain that the Town will exercise that option.

The Town has elected to recognize payments for short-term leases with a lease term of 12 months or less as expenses as incurred, and these leases are not included as lease liabilities or right-to-use lease assets on the statements of net position.

The individual lease contracts do not provide information about the discount rate implicit in the lease. Therefore, the Town has elected to use their incremental borrowing rate to calculate the present value of expected lease payments.

Net Position — Net position represents the difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the City or through external restrictions imposed by

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

creditors, grantors, or laws or regulations of other governments. Net position on the Statement of Net Position includes, net investment in capital assets, restricted for debt service and special revenue funds. The balance is classified as unrestricted.

Fund Balance — Generally, fund balance represents the difference between current assets and current liabilities. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Under this standard, the fund balance classifications are as follows:

Nonspendable fund balance — amounts that cannot be spent because they are either not in spendable form (inventories, prepaid amounts, long-term receivables) or they are legally or contractually required to be maintained intact (the corpus of a permanent fund).

Restricted fund balance — when constraints placed on the use of the resources are imposed by grantors, contributors, laws or regulations of other governments or imposed by law through enabling legislation. Enabling legislation includes a legally enforceable requirement that these resources be used only for the specific purposes as provided in the legislation. This fund balance classification will be used to report funds that are restricted for capital projects and debt service obligations and for other items contained in the Connecticut statutes.

Committed fund balance — amounts that can only be used for specific purposes pursuant to formal action of the City's highest level of decision-making authority. The Board of Apportionment and Taxation and the Board of Selectmen are the highest level of decision-making authority for the City that can, by the adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, these funds may only be used for the purpose specified unless the Board of Finance and Board of Representatives removes or changes the purpose by taking the same action that was used to establish the commitment. This classification includes certain amounts established and approved by the Board of Apportionment and Taxation and the Board of Selectmen.

Assigned fund balance — in the General Fund, will represent amounts constrained by Board of Apportionment and Taxation and the Board of Selectmen for amounts assigned for balancing the subsequent year's budget or the Comptroller for amounts assigned for encumbrances. An assignment cannot result in a deficit in the unassigned fund balance in the General Fund. Assigned fund balance in all other governmental funds represents any positive remaining amount after classifying nonspendable, restricted or committed fund balance amounts.

Unassigned fund balance — in the General Fund, represents amounts not classified as nonspendable, restricted, committed or assigned. The General Fund is the only fund that would report a positive amount in unassigned fund balance. For all governmental funds other than the General Fund, unassigned fund balance would necessarily be negative, since the fund's liabilities and deferred inflows of resources, together with amounts already classified as nonspendable, restricted and committed would exceed the fund's assets and deferred outflows of resources.

When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, the City considers that committed amounts would be reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of these unrestricted fund balance classifications could be used.

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

NOTE 2 — RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Explanation of Certain Differences between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net position.

The governmental fund balance sheet includes reconciliation between fund balance – total governmental funds and net position – governmental activities are reported in the government-wide statement of net position. One element of that reconciliation explains that “long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$68,729,802 difference are as follows:

Bonds and note payable	\$ 19,370,136
Bonds premium	1,059,137
Compensated absences	4,756,394
Net pension liability	12,839,940
Other post-employment obligations	30,300,035
Capital leases	200,053
Lease Payable - ROU Assets	7,565
Post-closure landfill	<u>196,542</u>
Net adjustment to reduce fund balance - total governmental funds to arrive at net position - governmental activities	<u>\$ 68,729,802</u>

Explanation of Certain Differences between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-Wide Statement of Activities.

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between the net changes in fund balances – total governmental funds and the changes in net position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that Governmental funds report capital outlays as expenditures.

However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

The details of this \$943,749 difference are as follows:

Capital outlay	\$ 2,598,959
Depreciation expense	<u>(3,542,708)</u>
Net adjustment to decrease net changes in fund balances - total governmental funds, to arrive at changes in net position of governmental activities	<u>\$ (943,749)</u>

Another element of that reconciliation states that “the issuance of long-term debt (e.g., bonds, leases)” provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.”

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

The details of this \$410,825 difference are as follows:

Principal repayments/(increase in long-term liabilities):

Note principal payments	\$ 1,325,328
Bond premium	138,976
Other miscellaneous long-term liabilities	18,879
Capital leases	267,304
Net pension liability	(546,397)
Compensated absences	259,647
Other post-employment obligations	<u>(1,052,912)</u>

Net adjustment to decrease net position in fund balances - total
governmental funds to arrive at changes in net position
of governmental activities

\$ 410,825

NOTE 3 — BUDGETS AND BUDGETARY ACCOUNTING

General Fund

The City establishes its budget in accordance with provisions of the Connecticut General Statutes and its Charter. The Charter requires that the Board of Apportionment and Taxation shall lay such taxes as may be required upon the Grand List of the City, which shall have been made according to law, next before the laying of such tax. Each board of the City government and each officer of the City under whose control money is expended shall, on or before the first day of April of each year, submit to said Board an estimate of the amount of money required by such board or such officer for the next ensuing year, giving details as far as practicable. The Board of Apportionment and Taxation, at a meeting thereof to be held in May of each year, shall prepare an estimate of the amounts required by each department of the City government for the ensuing year, giving particulars as far as possible and recommending appropriations for all these expenses for said year and shall cause such estimates forthwith to be published in a newspaper published in New Haven County and having a circulation in said City. The Board of Apportionment and Taxation shall hold a meeting in May in each year, and may adjourn the same from time to time to a day not later than the last business day of May and at said meeting, or any adjournment thereof, it shall hear all parties who may desire to be heard relative to any alterations in such estimates and appropriations, and may make any alterations in such estimates and appropriations, and may make such additional appropriations as it shall deem proper. The Board of Apportionment and Taxation, having made such alterations as it may determine, shall prepare a statement of appropriations and tax rates which it proposes to make and levy, and cause the same to be published in a newspaper published in New Haven County and having a circulation in said City, not later than three days after the last business day in May in said year.

The Board of Apportionment and Taxation is authorized to make appropriations and lay taxes for all City purposes and for all other purposes required by law and may fix the time when any tax laid by it shall become due and payable. The Board of Apportionment and Taxation shall have no authority to make appropriations in excess of the revenues of the City for any year, and in no case shall the expenses of the City exceed its revenue for any year, except in cases and for purposes for which the City is authorized by special act of general assembly to issue bonds and when bonds are in fact issued. The budget for the current year was adopted by the Board of Apportionment and Taxation and transfers and supplemental appropriations were approved during the year in accordance with provisions of the Connecticut General Statutes and the Charter of the City of Derby.

Annual budgets are prepared and employed for management control for the General Fund. Appropriations typically lapse at year end, except appropriations for capital projects which continue until completion of the project. There were \$3,019,418 in supplemental appropriations were approved by the Board of Apportionment

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

and Taxation during the fiscal year. The budget for the General Fund is presented on a basis consistent with generally accepted accounting principles.

The level of control for the General Fund is the legally adopted budget at the department/major activity level which is authorized by Charter. The level of control for Capital Projects Funds is the appropriations at the project level. Total expenditures cannot exceed total appropriations at the department/major activity level or the project authorization, over the length of the project. The level of control for Special Revenue Funds is at the project or program level in accordance with agreement provisions and various budgetary periods.

The City's formal budgeting system is employed as a management control device only for the General Fund and requires accounting for certain transactions to be on a basis other than generally accepted accounting principles (GAAP) basis. The General Fund budget is prepared on the modified accrual basis of accounting. There are two major differences between the budget and GAAP basis. The first is the requirement of the City to report on-behalf contributions made by the State of Connecticut to the Connecticut Teacher's Retirement System and State Teacher's OPEB, whereas on a budgetary basis these on-behalf payments are not reflected as expenditures. The second is the recording of revenue for items which should be reduction of expenses. A reconciliation between the accounting treatment for these items (the combined statements of revenues, expenditures and changes in fund balance), and the budgetary basis (the statement of revenues, expenditures and changes in fund balance-budget and actual-general fund) is as follows:

	<u>Revenues</u>	<u>Expenditures</u>	<u>Fund Balance</u>
Balance, budgetary basis at June 30, 2024	\$ 57,903,664	\$ 56,060,617	\$ 4,425,021
State Teachers' Retirement on-behalf payments	4,494,653	4,494,653	-
State Teachers' OPEB	518,118	518,118	-
Balance, GAAP basis at June 30, 2024	<u>\$ 62,916,435</u>	<u>\$ 61,073,388</u>	<u>\$ 4,425,021</u>

Encumbrances

Encumbrances, which are purchase orders, contracts and other legal commitments, are recorded in order to reserve the unexpended portion of the applicable appropriation. In the General Fund, encumbrances outstanding at year end are reported as reservations of fund balance since they do not constitute expenditures or liabilities and provide the authority for the carryover of appropriations to the subsequent year in order to complete these transactions. As of June 30, 2024, there were no encumbrances outstanding.

Special Revenue Funds

The City does not have legally adopted annual budgets for the Special Revenue Funds. Budgets for the various special revenue funds which are utilized to account for specific grant programs are established in accordance with the requirements of the grantor agencies. Such budgets will carryover until completion of the grants.

Capital Projects Funds

Legal authorization for expenditures of the Capital Projects Funds is provided by the related bond ordinances and/or intergovernmental grant agreements. Capital appropriations do not lapse until completion of the applicable projects.

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

NOTE 4 — DEPOSITS AND INVESTMENTS

Deposits and Investment Balances

Following is a reconciliation of the City's deposit and investment balances as of June 30, 2024:

	Carrying and Fair Values
Deposits	\$ 7,223,838
Money market accounts	3,182
Certificates of Deposit	698,223
Short-term investment fund	9,730,387
	<u>\$ 17,655,630</u>
 Governmental Funds	 \$ 9,238,824
Business-Type Funds	7,786,345
Fiduciary Fund	630,461
	<u>\$ 17,655,630</u>

At June 30, 2024, the carrying amount of the City's deposits was \$17,655,630, including the short-term investment funds. The bank balance of funds on deposit totaled \$18,739,309, including the short-term investment funds. Of the bank balances, \$2,118,930 was covered by federal depository insurance (up to \$250,000) or Security Investor Protection Corporation (up to \$500,000), \$1,662,048 was protected under provisions of the Connecticut General Statutes, which provide for protection against loss in excess of depository insurance through assessment against segregated collateral required to be maintained by public depositories, but not held in the City's name, and \$14,958,431 was uninsured and uncollateralized.

The level of the City's deposits varies significantly throughout the year as a result of higher cash flows during certain periods. As a result, uninsured and/or uncollateralized amounts at those times were substantially higher than at year-end.

Investments

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Generally, the City's investing activities are managed under the custody of the City Treasurer. Investing is performed in accordance with investment policies adopted by the Board of Aldermen complying with State Statutes and the City Charter.

The City's investments are categorized as either (1) insured or registered, or securities held by the City or its agency in the City's name, (2) uninsured and unregistered, with securities held by the counterpart's trust department or agent in the City's name or (3) uninsured and unregistered, with securities held by the counterparty, or by its trust department or agent but not in the City's name.

The State statutes authorize the City to invest in obligations of the United States, including its agencies, in obligations of any state or of any political subdivision, authority or agency thereof, provided that at the time of investment such obligations are rated within one of the top two rating categories of any recognized rating service; or in obligations of the State of Connecticut or of any political subdivision thereof, provided such obligations are rated within one of the top three rating categories of any recognized rating service.

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

The pension and other trust funds may also invest in certain real estate mortgages, in certain savings banks or savings and loan associations, in stocks or bonds, or in other securities selected by the trustee with the care of a prudent investor.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The City generally invests in certificates of deposit that mature in less than one year and mutual funds. The City follows the State Statutes as its investment policy.

The City's investments at June 30, 2024 are shown below:

TOTAL	\$ 11,378,618	\$ 20,143,061		

The City's investments are classified under category 1. Category 1 investments are investments that are insured or registered, or securities held by the City or its agent in the City's name.

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

NOTE 5 — RECEIVABLES

As of June 30, 2024, receivables by type for the City's government-wide financial statements were as follows:

	General	Nonmajor governmental Funds	Water Pollution Control Authority	Total
Receivables:				
Taxes and interest	\$ 2,788,512	\$ -	\$ -	\$ 2,788,512
Accounts and Other	3,327,291	60,998	-	3,388,289
Sewer Assessments	-	-	1,808,792	1,808,792
Intergovernmental	458,252	177,923	-	636,175
Gross receivables	6,574,055	238,921	1,808,792	8,621,768
Less allowance for collection losses	220,000	-	20,000	240,000
Net receivables	<u>\$ 6,354,055</u>	<u>\$ 238,921</u>	<u>\$ 1,788,792</u>	<u>\$ 8,381,768</u>

Governmental funds report deferred inflows of resources in connection with receivables that are not considered available to be liquidate liabilities for the current period. Governmental funds also record unearned revenue in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, various components of deferred inflows of resources and unearned revenue reported in the governmental funds were as follows:

	Unavailable	Unearned
General Fund:		
Delinquent property taxes	\$ 2,342,299	\$ -
Blight receivable	2,661,068	-
Various education grants		50,018
Silo Fund- monies received in advance	-	33,741
ARPA/Roads 2015	-	975
Nonmajor governmental funds:		
Community Development	-	172,733
Police Grant	-	182,117
	<u>\$ 5,003,367</u>	<u>\$ 439,584</u>

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

NOTE 6 — INTERFUND ACCOUNTS

As of June 30, 2024, interfund receivables and payables that resulted from various interfund transactions were as follows:

<u>Funds</u>	<u>Due from Other Funds</u>	<u>Due to Other Funds</u>
Major:		
General	\$ 609,731	\$ 85,276
Enterprise	-	774,700
	<u>609,731</u>	<u>859,976</u>
Nonmajor funds:		
School Lunch	80,299	-
Board of Education Activity Fund	-	-
Community Development	-	-
Silo Fund	138,241	-
Land acquisition	-	27,517
School Roof	-	124,219
	<u>218,540</u>	<u>151,736</u>
Total	<u>\$ 828,271</u>	<u>\$ 1,011,712</u>

The General Fund interfund payable is due to various advances of bond monies received by the General Fund yet to be remitted to their respective Sewer and Road Project Funds. These amounts are expected to be repaid within one year. Capital Projects Funds interfund receivable and payable represent amounts due from/to the other capital projects for operations and are being repaid as funds become available. School lunch payroll is paid by the Board of Education and is later repaid by the School Lunch Program.

There were no interfund transfers for the year ended June 30, 2024.

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

Lease Obligations

The City is obligated, as a lessee, under various capital leases for the acquisition of a fire truck, other heavy equipment and computer. The following is a schedule of future minimum lease obligations and the net present value of these minimum payments:

Year Ended June 30,	Governmental Activities Payment	Business-Type Activities Payment
2025	\$ 173,937	\$ 40,976
2026	34,140	40,976
2027	-	6,829
	<u>208,077</u>	<u>88,781</u>
Less amount representing interest	8,024	5,588
Net present value of lease payments	<u>\$ 200,053</u>	<u>\$ 83,193</u>

Right-of Use Leases (ROU)

The City leases equipment for various terms under long-term, non-cancellable lease agreements. The lease expires at various dates through 2026.

Total future minimum lease payments under lease agreements are as follows:

2025	5,306	154
2026	2,258	17
Total	<u>\$ 7,564</u>	<u>\$ 171</u>

Right-of-use (ROU) assets acquired through outstanding leases are shown below, by underlying asset class.

Office Equipment	\$ 192,719
Less: Accumulated Amortization	(185,040)
Total	<u>\$ 7,679</u>

Governmental Activities

Property and equipment carried at a cost of \$1,340,458 with accumulated amortization of \$741,192 has been acquired under capital lease arrangements. The annual payments under these leases were \$223,324 with interest rates ranging from 3.6% to 7.4%. The capital lease obligations are financed by the general fund.

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

Business-Type Activities

Property and equipment carried at a cost of \$338,151 with accumulated amortization of \$163,834 has been acquired under capital lease arrangement. The annual required payments under these leases were \$71,160 with interest rates ranging from 4.15% to 8.4%. The capital lease obligation is financed by the Water Pollution Control Authority.

Subscription-Based Information Technology Arrangements Liability

The City leases subscription based technology arrangements under noncancelable agreements. Those agreements in the current year have expired as of the year ended June 30, 2023. All payments for the leased subscriptions have been made as of June 30, 2023. Subsequent to the year-end numerous subscription based technology arrangements have been signed most of which are single fiscal year terms with one contract being a two year term starting July 1, 2024 resulting in total SBITA lease payments of \$104,585.

Subscription assets are comprised of software purchases.

Compensated Absences

There is no accrual for compensated absences that are dependent on the performance of future service by employees, or when payments are dependent on future events that are outside the control of the employer and employee. The liability for compensated absences earned but not yet paid is included in the general long-term debt account group. City employees accumulate a limited amount of sick leave until termination of their employment. These amounts are based on length of employment and/or labor contracts. Sick leave is recognized in a governmental fund in the current year to the extent it is paid or the vested amount is expected to be paid with current available resources.

Public safety	\$ <u>(708,761)</u>
Board of Education-operations	\$ <u>(112,208)</u>
Board of Education-grants	\$ <u>(7,980,763)</u>
Capital outlay	\$ <u>(33,276)</u>

* The Board of Education-grant budget is fully subsidized with grant revenues.

NOTE 12- EMPLOYEE RETIREMENT PLANS

Connecticut Municipal Employees' Retirement Plan

Organization

Connecticut's Municipal Employees Retirement System (CMERS) is the public pension plan offered by the State of Connecticut for municipal employees in participating municipalities. The plan was established in 1947 and is governed by Connecticut Statute Title 7, Chapter 113. CMERS is a multiemployer pension plan administered by the Connecticut State Retirement Commission. The State Retirement Commission is responsible for the administration of the Connecticut Municipal Employees Retirement System (CMERS). The State Treasurer is responsible for investing CMERS funds for the exclusive benefit of CMERS members.

Plan description

Municipalities may designate which departments (including elective officers if so specified) are to be covered under the Municipal Employees Retirement System. This designation may be the result of collective bargaining. Only employees covered under the State Teachers Retirement System may not be included. There is no minimum age or service requirements. Membership is mandatory for all regular full-time employees of participating departments except Police and Fire hired after age 60.

The plan has 4 sub plans as follows:

- General employees with social security
- General employees without social security
- Policemen and firemen with social security
- Policemen and firemen without social security

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

Benefit provisions

The plan provides retirement, disability and death benefits as defined in the statutes.

General Employees-Employees are eligible to retire at age 55 with 5 years of continuous service, or 15 years of active aggregate service, or 25 years of aggregate service.

Policemen and Firemen-Compulsory retirement age for police and fire members is age 65.

Normal Retirement: For members not covered by social security, the benefit is 2% of average final compensation times years of service.

For members covered by social security, the benefit is 1.5 % of the average final compensation not in excess of the year's breakpoint plus 2% of average final compensation in excess of the year's breakpoint, times years of service.

The maximum benefit is 100% of average final compensation and the minimum benefit is \$1,000 annually. Both the minimum and the maximum include workers' compensation and social security benefits.

If any member covered by social security retires before age 62, the benefit until age 62 is reached or a social security disability award is received, is computed as if the member is not under social security.

Early Retirement: Employees are eligible after 5 years of continuous or 15 years of active aggregate service. The benefit is calculated on the basis of average final compensation and service to date of termination. Deferred to normal retirement age, or an actuarially reduced allowance may begin at the time of separation.

Disability Retirement: Employees are eligible for service-related disability benefits from being permanently or totally disabled from engaging in the service of the municipality provided such disability has arisen out of and in the course of employment with the municipality. Disability due to hypertension or heart disease, in the case of firemen and policemen, is presumed to have been suffered in the line of duty. Disability benefits are calculated based on compensation and service to the date of the disability with a minimum benefit (including workers' compensation benefits) of 50% of compensation at the time of disability.

Employees are eligible for non-service-related disability benefits with 10 years of service and being permanently or totally disabled from engaging in gainful employment in the service of the municipality. Disability benefits are calculated based on compensation and service to the date of the disability.

Pre-Retirement Death Benefit: The plan also offers a lump sum return of contributions with interest or surviving spouse benefit depending on length of service.

Contributions

Employer:

Participating municipalities make annual contributions consisting of a normal cost contribution, a contribution for the amortization of the net unfunded accrued liability and a prior service amortization payment which covers the liabilities of the system not met by member contributions. There is also an annual administrative fee per active & retired member.

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

Employees:

For employees not covered by social security, each person is required to contribute 5% of compensation. For employees covered by social security, each person is required to contribute 2.25% of compensation up to the social security taxable wage base plus 5% of compensation, if any, in excess of such base.

Allocation methodology for Pension Liability, Pension Expense and Deferred outflows/inflows of resources

The schedules of employer allocations were calculated based upon the 2020 actuarial (expected) payroll amounts reported by participating employers. Expected payroll adjusts actual payroll for known changes in the status of employees, annualized salaries for partial year employees and anticipated salary increases. The employer allocations were then applied to the net pension liability, pension expense, deferred inflows, sensitivity analysis and the deferred inflow amounts to be recognized in fiscal years subsequent to the reporting date to determine the amount applicable to each employer. The schedules of employer allocations reflect actuarial employer payroll for the fiscal year ended June 30, 2022. Based upon the employer's payroll as compared to the total, an employer allocation percentage is calculated to six decimal places and is used to allocate the elements noted above.

Pension Liability

At June 30, 2024, the City reported a liability of \$8,645,844 for its proportionate share of the CMERS' net pension liability. The net pension liability was measured as of June 30, 2023. The total pension liability used to calculate the net pension liability was determined using update procedures to roll forward the total pension liability from an actuarial valuation as of June 30, 2023, to the measurement date of June 30, 2023. The components of the net pension liability of the City at June 30, 2024 was as follows:

	Derby Police MERS
Total pension liability	\$ 28,384,617
Plan fiduciary net assets	<u>19,738,773</u>
Net Pension Liability	<u>\$ 8,645,844</u>
Plan fiduciary net position as a percentage of the total pension liability	<u>69.54%</u>
Percentage of the total	<u>7.519%</u>

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

Pension expense and deferred outflows/inflows of resources

For the year ended June 30, 2024, the City recognized pension expense (income) for their portion of the CMERS of \$1,061,504. At June 30, 2024, the County reported deferred outflows of resources related to pensions from the following sources:

	Derby Police MERS	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,020,569	\$ 97,205
Change of assumptions	1,117,973	-
Changes in proportion and difference between employers contributions and proportionate share of contributions	115,658	429,705
Differences between projected and actual investment earnings on plan investments	642,242	-
Total	<u>\$ 2,896,442</u>	<u>\$ 526,910</u>
Percentage of total	<u>7.519%</u>	
Pension Expense	<u>\$ 1,061,504</u>	

Deferred (inflows) outflows of resources related to CMERS pension will be recognized in pension expense (income) as follows:

Year Ending June 30,	Derby Police MERS
2025	\$ 553,313
2026	477,304
2027	970,645
2028	280,245
2029	88,025
Thereafter	-
Total	<u>\$ 2,369,532</u>

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

Actuarial Assumptions

The collective total pension liability was determined by an actuarial valuation as of June 30, 2023, using the following actuarial assumptions, applied to all periods included in the measurement period:

Inflation	2.50%
Salary	3.5-9.50%, including inflation
Investment rate of return	7% net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2014 Combined Mortality Table for annuitants and non-annuitants (set forward one year for males and set back one year for females).

Future Cost-of-Living adjustments for members who retire on or after January 1, 2002, are 60% of the annual increase in the CPI up to 6%. The minimum annual COLA is 2.5%, the maximum is 6%.

Long-term rate of return

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in the plan's target asset allocation as of June 30, 2023 are summarized in the following table:

Asset Class	MERS - Target Allocation	MERS- Long-Term Expected Real Rate of Return
Global Equity	37.0%	6.8%
Public Credit	2.0%	2.9%
Core fixed income	13.0%	0.4%
Liquidity fund	1.0%	-0.4%
Risk Mitigation	5.0%	0.1%
Private equity	15.0%	11.2%
Private Credit	10.0%	6.1%
Real estate	10.0%	6.3%
Infra. & Natural Resources	<u>7.0%</u>	7.7%
	<u>100%</u>

Sensitivity of the net pension liability to changes in the discount rate. The following presents the net pension liability, calculated using the discount rate of 7.00% as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease	Current	1% Increased
	to 6%	Discount	to 8%
Net Pension Liability (Asset)		Rate 7%	
Derby Police-MERS	<u>\$ 12,096,438</u>	<u>\$ 8,645,844</u>	<u>\$ 5,784,408</u>

Connecticut State Teachers' Retirement Fund

Organization

The Connecticut Teachers' Retirement System (TRS) is the public pension plan offered by the State of Connecticut to provide retirement, disability, survivorship and health insurance benefits for Connecticut public school teachers and their beneficiaries. The plan is governed by Connecticut Statute Title 10, Chapter 167a of the Connecticut General Statutes. TRS is a multiemployer pension plan administered by the Connecticut State Teachers' Retirement Board. The State Teachers' Retirement Board (TRB) is responsible for the administration of the Connecticut Teachers' Retirement System. The State Treasurer is responsible for investing TRS funds for the exclusive benefit of TRS members.

Plan description

Teachers, principals, superintendents or supervisors engaged in service of public schools are provided with pensions through the Connecticut State Teachers' Retirement System - a cost sharing multiemployer defined benefit pension plan administered by the Teachers' Retirement Board. Chapter 167a of the State Statutes grants authority to establish and amend the benefit terms to the TRB. TRS issues a publicly available financial report that can be obtained at www.ct.gov.

Benefit provisions

The plan provides retirement, disability and death benefits. Employees are eligible to retire at age 60 with 20 years of credited service in Connecticut, or 35 years of credited service including at least 25 years of service in Connecticut.

Normal Retirement: Retirement benefits for the employees are calculated as 2% of the average annual salary times the years of credited service (maximum benefit is 75% of average annual salary during the 3 years of highest salary).

In addition, amounts derived from the accumulation of 6% contributions made prior to July 1, 1989 and voluntary contributions are payable.

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

Early Retirement: Employees are eligible after 25 years of credited service including 20 years of Connecticut service, or age 55 with 20 years of credited service including 15 years of Connecticut service. Benefit amounts are reduced by 6% per year for the first 5 years preceding normal retirement age and 4% per year for the next 5 years preceding normal retirement age. Effective July 1, 1999, the reduction for individuals with 30 or more years of service is 3% per year by which retirement precedes normal retirement date.

Minimum Benefit: Effective January 1, 1999, Public Act 98-251 provides a minimum monthly benefit of \$1,200 to teachers who retire under the normal retirement provisions and who have completed at least 25 years of full time Connecticut service at retirement.

Disability Retirement: Employees are eligible for service-related disability benefits regardless of length of service. Five years of credited service is required for nonservice-related disability eligibility. Disability benefits are calculated as 2% of average annual salary times credited service to date of disability, but not less than 15% of average annual salary, nor more than 50% of average annual salary. In addition, disability benefits under this plan (without regard to cost-of-living adjustments) plus any initial award of social security benefits and workers' compensation cannot exceed 75% of average annual salary.

A plan member who leaves service and has attained 10 years of service will be entitled to 100% of the accrued benefit as of the date of termination of covered employment. Benefits are payable at age 60 and early retirement reductions are based on the number of years of service the member would have had if they had continued work until age 60.

Pre-Retirement Death Benefit: The plan also offers a lump-sum return of contribution with interest or surviving spouse benefit depending on length of service.

Contributions-State of Connecticut

Per Connecticut General Statutes Section 10-183z (which reflects Public Act 79-436 as amended), contribution requirements of active employees and the State of Connecticut is amended and certified by the State Teachers' Retirement Board and appropriated by the General Assembly. The contributions are actuarially determined as an amount that, when combined with employee contributions and investment earning, is expected to finance the costs of the benefits earned by employees during the year, with any additional amount to finance any unfunded accrued liability.

Employer (School Districts)

School district employers are not required to make contributions to the plan.

Employees:

Effective July 1, 1992, each teacher is required to contribute 6% of salary for the pension benefit.

In addition, the City has recognized revenues and expenditures for on-behalf payments for pension contributions paid directly to the Connecticut State Teachers' Retirement System by the State of Connecticut. Such on-behalf payments were \$4,494,653 for the year ended June 30, 2024.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2024, the City reports no amounts for its proportionate share of the net pension liability, and related deferred outflows and inflows, due to the statutory requirement that the State pay 100% of the required

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

contribution. The amount recognized by the Town as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the Town were as follows:

City's proportionate share of the net pension liability	\$ -
State's proportionate share of the net pension liability associated with the City	<u>\$ 46,944,386</u>
Total	<u>\$ 46,944,386</u>
City's covered-employee payroll	<u>\$ -</u>
City's proportionate share of the net pension liability	<u>0%</u>
Plan fiduciary net position as a percentage	<u>58.39%</u>

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of June 30, 2023, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increase	3.00-6.50%, including inflation
Investment rate of return	3.00%, net of pension plan investment expense, including inflation

Mortality rates were based on the RPH-2014 White Collar table with employee and annuitant rates blended from ages 50 to 80, projected to the year 2020 using the BB improvement scale.

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial experience study for the period July 1, 2010 - June 30, 2015.

Future cost-of-living increases for teachers who retired prior to September 1, 1992, are made in accordance with increases in the Consumer Price Index, with a minimum of 3% and a maximum of 5% per annum. For teachers who were members of the Teachers' Retirement System before July 1, 2007, and retire on or after September 1, 1992, pension benefit adjustments are made that are consistent with those provided for Social Security benefits on January 1 of the year granted, with a maximum of 6% per annum. If the return on assets in the previous year was less than 8.5%, the maximum increase is 1.5%. For teachers who were members of the Teachers' Retirement System after July 1, 2007, pension benefit adjustments are made that are consistent with those provided for Social Security benefits on January 1 of the year granted, with a maximum of 5% per annum. If the return on assets in the previous year was less than 11.5%, the maximum increase is 3%, and if the return on the assets in the previous year was less than 8.5%, the maximum increase is 1.0%.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

The target asset allocation and best estimates of arithmetic real rates of return for each major class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global Equity	37%	6.8%
Public Credit	2%	2.9%
Core Fixed Income	13%	0.4%
Liquidity Fund	1%	-0.4%
Risk Mitigation	5%	0.1%
Private Equity	15%	11.2%
Private Credit	10%	6.1%
Real Estate	10%	6.2%
Infrastructure and Natural Resources	7%	7.7%
	<u>100%</u>	

Discount Rate

The discount rate used to measure the total pension liability was 6.9%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that State contributions will be made at the actuarially determined contribution rates in the future years. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability, calculated using the discount rate of 6.90% as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	<u>1% Decrease to 5.9%</u>	<u>Current Discount Rate 6.9%</u>	<u>1% Increased to 7.9%</u>
State's share of NPL associated with the City	<u>\$ 61,324,503</u>	<u>\$ 46,944,386</u>	<u>\$ 34,999,370</u>

Other Information

Additional information is included in the required supplementary information section of the financial statements. A schedule of contributions is not presented as the City has no obligation to contribute to the plan.

A copy of the plan's comprehensive annual financial report can be obtained from the State of Connecticut Teachers Retirement Board.

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

City Employees' Retirement Plan

Plan Description

City Public Employee Retirement System – The City of Derby Pension Plan covers substantially all full-time employees of the City of Derby and its related agencies, except teachers, who are covered by the State Teacher's Retirement Fund and police employees who are covered by the State Municipal Employees Retirement Fund. The Public Employee Retirement System is the administrator of a single-employer pension plan that was established by the City in accordance with the City charter and state statutes.

As of July 1, 2023, employee membership data related to the pension plan was as follows:

Inactive plan members or beneficiaries currently receiving benefits	82
Inactive plan members or beneficiaries currently not yet receiving benefits	75
Active plan members	<u>66</u>
	<u>223</u>

The pension plan provides pension benefits, cost of living allowances, and death and disability benefits. A member may retire after reaching the age of 63 and completing 25 years of service, or after 5 years of service having attained age 65. Also, a member may retire early after reaching age 55 and completing 10 years of service. Employees who retire at or after age 55 with 25 or more years of service are entitled to pension payments equal to 2% of average annual pay during five consecutive highest paid years, times the number of years and completed months of service for which they were employed by the City.

For employees who retire early, the normal retirement formula applies except those benefits are reduced one-half percent (.5%) for each month before the normal retirement date that the pension begins.

Employees of the City are required to pay 3.5% of their gross earnings to the pension plan. The payments are deducted from the employee's wages or salary and remitted by the City to the Public Employee Retirement System on a monthly basis. If an employee leaves the employment of the City before 25 years of service, the accumulated contributions plus earned interest are refunded to the employee or the employee's designated beneficiary.

For the year ended June 30, 2024, the City's total payroll for all employees amounted to \$20,619,375 and the City's total covered payroll amounted to \$3,773,413. Covered payroll refers to all compensation paid by the City to active employees covered by the Derby Public Employee Retirement System on which contributions to the pension plan are based.

	<u>0.00%</u>	<u>0.56%</u>	<u>0.00%</u>
	<u>100%</u>		5.65%
Long-term inflation expectation			<u>2.40%</u>
Long-term expected nominal return			<u>8.05%</u>

*Long Term Returns are provided by Beirne Wealth Consulting.

Rate of Return: The returns are geometric means. The long term expected rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return are developed. Best estimates of the real rates of return for each major asset class are included in the pension plan's target asset allocation. The information above is based on geometric means and does not reflect additional returns through investment selection, asset allocation and rebalancing. The investment return assumption used assumed a change in the long-term asset allocation shown above. The plan sponsor will be reviewing the plan's investment and corresponding assumptions in the coming year. Based on the results of this analysis, we expect that there will be changes in the asset allocation and/or investment return assumption. An expected rate of return of 6.75% was used.

Valuation Date and Roll Forward Process: The July 1, 2023, Actuarial Valuation directly calculated the July 1st, 2023 Total Pension Liability (TPL). The July 1, 2023 TPL was increased by service cost and interest and decreased by benefit payments to estimate the TPL as of June 30, 2024. The TPL as of June 30, 2023, was also adjusted to reflect any material plan changes after the valuation, if applicable.

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

Net Pension Liability of the City

The components of the net pension liability of the City at June 30, 2024 were as follows:

	City Employees' Retirement 2024
Total pension liability	\$ 23,760,275
Plan fiduciary net assets	<u>19,566,179</u>
Net Pension Liability	<u>\$ 4,194,096</u>
Plan fiduciary net position as a percentage of the total pension liability	<u>82.35%</u>
Covered-employee payroll	<u>\$ 3,773,413</u>
Net pension liability as a % of covered payroll	<u>111.15%</u>

The City's net pension liability is recorded on the governmental-wide statement of net position at June 30, 2024.

Actuarial Assumptions (GASB 67)

The actuarial assumptions are as follows:

	City's Retirement Plan
Valuation date	July 1, 2023
Actuarial cost method	Aggregate Actuarial cost method
Actuarial accrued liability	N/A
Remaining amortization period	N/A
Asset valuation method	Expected value
Investment rate of return	6.50%
Inflation	2.40%
Retirement age	65
Mortality	MP-2021

There have been no significant changes between the valuation date and the fiscal year end.

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

Concentrations

Investments that represent 5% or more of net position available for benefits are listed in Note 4.

Discount Rate:

The discount rate used to measure the total pension liability was 6.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Therefore, the long-term expected rates of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate

The following presents the net pension liability (asset) of the City, calculated using the discount rate of 6.50%, as well as what the City's net pension liability (asset) would be if it were calculated using a discount rate that is 1.00% lower or 1.00% higher than the rate utilized:

	1% Decrease to 5.50%	Current Discount Rate 6.50%	1% Increased to 7.50%
<u>Net Pension Liability (Asset)</u>			
City Employees' Retirement	<u>\$ 6,828,581</u>	<u>\$ 4,194,096</u>	<u>\$ 1,956,037</u>

Pension expense and deferred outflows of resources and deferred inflows of resources related to pensions

For the year ended June 30, 2024, the City recognized pension expense of \$331,156 for the City Pension Plan. The City reported deferred outflows of resources related to pensions from the following sources:

	<u>City Pension</u>	
	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience		\$ (649,241)
Changes in assumptions	\$ 181,846	-
Net difference between projected and actual earnings on investments		(227,094)
Total	<u>\$ 181,846</u>	<u>\$ (876,335)</u>

Actual investment earnings below (or above) projected earnings are amortized over 4 years. Change of assumption and experience losses (gains) are amortized over the average remaining service period of actives and inactive, which was also 5 years.

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

Amounts reported as deferred outflows (inflows) of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	City Pension
2025	(715,995)
2026	250,615
2027	(142,767)
2028	(86,342)
2029	-
Thereafter	-
Total	<u>\$ (694,489)</u>

NOTE 13 - POST-RETIREMENT BENEFITS

The City provides post-retirement benefits for certain employees for current and future health and life insurance benefit expenses through a single employer defined benefit plan. An annual actuarial valuation is made to determine whether the contributions are sufficient to meet the plan obligations. The latest actuarial valuation was made July 1, 2023. The post-retirement plan does not issue stand-alone financial reports.

GASB 75 governs the specifics of accounting for public OPEB plan obligations for participating employers and is required to be implemented for employer fiscal years beginning after June 15, 2017. GASB 75 requires a liability for OPEB obligations, known as the Net OPEB Liability (Total OPEB Liability for unfunded plans), to be recognized on the balance sheets of participating employers. Changes in the Net OPEB Liability (Total OPEB Liability for unfunded plans) will be immediately recognized as OPEB Expense on the income statement or reported as deferred inflows/outflows of resources depending on the nature of the change.

The employer does not pre-fund benefits. The current funding policy is to pay benefits directly from general assets on a pay-as-you-go basis.

Membership in the plan consisted of the following at July 1, 2023, the date of the last actuarial valuation.

Active plan members	296
Retirees	47
Spouses of Retirees	-
Total members	<u>343</u>

The calculation of the Net Other Post-Employment Benefits (OPEB) is detailed as follows and is recorded in Governmental Activities:

Total OPEB liability	\$ 30,300,034
Plan fiduciary net position	<u>-</u>
Towns net OPEB liability	<u>\$ 30,300,034</u>
Covered payroll	<u>\$ 20,011,624</u>
Total OPEB liability as a % of covered payroll	<u>151.41%</u>

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS

Connecticut State Teachers' Retirement Board Retiree Health Insurance Plan

Plan description

Teachers, principals, superintendents, supervisors and professional employees at State schools of higher education if they choose to be covered that are currently receiving a retirement or disability benefit are eligible to participate in the Connecticut State Teachers' Retirement System Retiree Health Insurance Plan ("TRS-RHIP") - a cost sharing multiple-employer defined benefit other post-employment benefit plan administered by the Teachers' Retirement Board ("TRB"). Chapter 167a Section 10-183t of the State Statutes grants authority to establish and amend the benefit terms to the TRB. TRS-RHIP issues a publicly available financial report that can be obtained at www.ct.gov/trb.

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

Benefit provisions

The Plan provides for retiree health insurance benefits. Eligibility is as follows:

- Normal Retirement: Eligibility - Age 60 with 20 years of Credited Service in Connecticut, or 35 years of Credited Service including at least 25 years of service in Connecticut.
- Early Retirement: Eligibility - 25 years of Credited Service including 20 years of Connecticut service, or age 55 with 20 years of Credited Service including 15 years of Connecticut service.
- Proratable Retirement: Eligibility - Age 60 with 10 years of Credited Service.
- Disability Retirement: Eligibility - 5 years of Credited Service in Connecticut if not incurred in the performance of duty and no service requirement if incurred in the performance of duty.
- Termination of Employment: Eligibility - 10 or more years of Credited Service.

Retiree health care coverage

Any member that is currently receiving a retirement or disability benefit is eligible to participate in the Plan. There are two types of the health care benefits offered through the system. Subsidized Local School District Coverage provides a subsidy paid to members still receiving coverage through their former employer and the CTRB Sponsored Medicare Supplemental Plans provide coverage for those participating in Medicare, but not receiving Subsidized Local School District Coverage.

Any member that is not currently participating in Medicare Parts A & B is eligible to continue health care coverage with their former employer. A subsidy of up to \$110 per month for a retired member plus an additional \$110 per month for a spouse enrolled in a local school district plan is provided to the school district to first offset the retiree's share of the cost of coverage, any remaining portion is used to offset the district's cost. The subsidy amount is set by statute and has not increased since July of 1996. A subsidy amount of \$220 per month may be paid for a retired member, spouse or the surviving spouse of a member who has attained the normal retirement age to participate in Medicare, is not eligible for Part A of Medicare without cost and contributes at least \$220 per month towards coverage under a local school district plan.

Any member that is currently participating in Medicare Parts A & B is eligible to either continue health care coverage with their former employer, if offered, or enroll in the plan sponsored by the System. If they elect to remain in the plan with their former employer, the same subsidies as above will be paid to offset the cost of coverage.

If a member participating in Medicare Parts A & B so elects, they may enroll in one of the CTRB Sponsored Medicare Supplemental Plans. Active members, retirees, and the State pay equally toward the cost of the basic coverage (medical and prescription drug benefits).

Those participants electing vision, hearing, and/or dental are required by the System's funding policy to pay the full cost of coverage for these benefits, and no liability is assumed by the Plan for these benefits.

Survivor health care coverage

Survivors of former employees or retirees remain eligible to participate in the Plan and continue to be eligible to receive either the \$110 monthly subsidy or participate in the TRB-Sponsored Medicare Supplemental Plans, as

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

long as they do not remarry.

Contributions-State of Connecticut

Per Connecticut General Statutes Section 10-183z, contribution requirements of active employees and the State of Connecticut are amended and certified by the State Teachers' Retirement Board and appropriated by the General Assembly. The State contributions are not currently actuarially funded. The State appropriates from the General Fund one third of the annual costs of the Plan. Administrative costs of the Plan are financed by the State. Based upon Chapter 167a, Subsection D of Section 10- 183t of the Connecticut statutes, it is assumed the State will pay for any long-term shortfall arising from insufficient active member contributions.

Employer (School Districts)

School district employers are not required to make contributions to the plan.

Employees

Each member is required to contribute 1.25% of their annual salary.

OPEB liabilities, OPEB expense, deferred outflows of resources and deferred inflows of resources related to OPEB

The City reports no amounts for its proportionate share of the net OPEB liability, and related deferred outflows and inflows due to the statutory requirement that the State pay 100% of the required contribution. The amounts recognized by the City as its proportionate share of the net OPEB liability, the related state support, and the total portion of the net OPEB liability that was associated with the City were as follows:

City's proportionate share of the OPEB liability	\$ -
State's proportionate share of the OPEB liability associated with the City	<u>\$ 4,398,044</u>
Total	<u>\$ 4,398,044</u>

The net OPEB liability was measured as of June 30, 2023, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2023. The City has no proportionate share of the net OPEB liability. The City recognized OPEB expense and revenue of (\$518,118) for on-behalf amounts for the contributions to the plan by the State.

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

Actuarial Assumptions

Inflation	2.50%
Real Wage Growth	0.50%
Wage Inflation	3.00%
Salary increases	3.00-6.50%, including inflation
Long-term investment rate of return	3.00%, net of OPEB plan investment expense, including inflation
Municipal bond index rate:	Measurement Date 3.65%
	Prior Measurement Date 3.54%
Projected fiduciary net position is projected to be depleted	2028
<u>Single equivalent interest rate:</u>	
Measurement Date	3.65%, net of OPEB plan investment expense, including price inflation
Prior Measurement Date	3.54%, net of OPEB plan investment expense, including price inflation
<u>Healthcare cost trend rates:</u>	
Medicare	Known increases until calendar year 2024, then general trend decreasing to an ultimate rate of 4.5% by 2031.

Mortality rates were based on the PubT-2010 Healthy Retiree Table (adjusted 105% for males and 103% for females as ages 82 and above), projected generationally with MP-2019 for the period after service retirement.

The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period July 1, 2014 - June 30, 2019.

Changes in assumptions and inputs

The discount rate was increased from 3.53% to 3.64% to reflect the change in the Municipal Bond Index rate. Additionally, expected annual per capita claims costs were updated to better reflect anticipated medical and prescription drug claim experience both before and after the plan change that became effective on January 1, 2019. Further, the expected rate of inflation was decreased and the Real Wage Growth assumption was increased.

The Board adopted new assumptions as the result of an experience study for the five-year period ending June 30, 2019. The changes in assumptions are summarized below:

- Decrease the annual rate of real wage increase assumption from 0.75% to 0.50%.
- Decrease payroll growth assumption from 3.25% to 3.00%.
- Rates of withdrawal, disability, retirement, mortality, and assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience.

Long-term expected rate of return

The long-term expected rate of return on OPEB plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class.

These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

All the plan assets are assumed to be invested in cash equivalents due to the need for liquidity. The expected rate of return is 3.00%.

Affordable Care Act (ACA)

The impact of the Affordable Care Act (ACA) was addressed in this valuation. Review of the information currently available did not identify any specific provisions of the ACA that are anticipated to significantly impact results. While the impact of certain provisions such as the excise tax on high-value health insurance plans beginning in 2020 (if applicable), mandated benefits and participation changes due to the individual mandate should be recognized in the determination of liabilities, overall future plan costs and the resulting liabilities are driven by amounts employers and retirees can afford (i.e., trend). The trend assumption forecasts the anticipated increase to initial per capita costs, taking into account health care cost inflation, increases in benefit utilization, plan changes, government-mandated benefits, and technological advances.

Given the uncertainty regarding the ACA's implementation (e.g., the impact of excise tax on high-value health insurance plans, changes in participation resulting from the implementation of state-based health insurance exchanges), continued monitoring of the ACA's impact on the Plan's liability will be required.

Discount rate

The discount rate used to measure the total OPEB liability was 3.65%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate contribution rates and the member rate.

Sensitivity of the OPEB liability to changes in the discount rate and the health care cost trend rate

The City's proportionate share of the net OPEB liability is \$0 and, therefore, the change in the discount rate would only impact the amount recorded by the State of Connecticut.

Plan fiduciary net position

Detailed information about the Connecticut State Teachers' OPEB Plan fiduciary net position is available in the separately issued State of Connecticut Comprehensive Annual Financial Report at www.ct.gov.

NOTE 14 – COMMITMENTS AND CONTINGENT LIABILITIES

The City of Derby, Connecticut is contingently liable in a number of lawsuits involving personal injury claims, heart and hypertension, tax appeals, negligence, zoning, personnel, and other miscellaneous suits and unasserted claims.

The City has received state and federal grants for specific purposes that are subject to review and audit by the grantor agencies. The audits of these programs by the grantor agencies could result in a request for reimbursement for expenditures disallowed under the terms and conditions of the grant. Based upon prior experience, City management believes such disallowances, if any, will not be material.

Construction Commitments

The fund balances in the Capital Project Funds will be used for future construction and renovation.

CITY OF DERBY, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

NOTE 15 -RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; employee health and medical claims and natural disasters. The City carries commercial insurance for these risks. For insured programs, there have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage for the three prior years.

NOTE 16- CLOSURE AND POSTCLOSURE CARE COSTS

State and federal laws and regulations require that the City of Derby place a final cover on its landfill when it was closed and perform certain maintenance and monitoring functions at the landfill site for thirty years after closure. The recognition of these landfill closure and post closure care costs is based on the amount of landfill used during the year. The estimated remaining cost of the post closure care is \$196,542, which is based on the amount that would be paid if all equipment, facilities, and services required to close, monitor, maintain the landfill and construct a transfer station were completed as of June 30, 2024. The actual cost of closure and post closure care may be higher due to inflation, changes in technology, or changes in landfill laws and regulations. The landfill closure costs of \$1,100,000 was financed by general obligation bonds of \$300,000 issued during fiscal year ended June 30, 1995, and by State grants estimated at \$800,000. These landfill grants and post closure costs have been included in Other Governmental Funds.

NOTE 17 – SELF INSURANCE

The City is self-insured for liabilities for most health benefits, third-party claims, and workers' compensation which is accounted for in the general fund. The Risk Management office actively manages risk on behalf of the City, through a combination of loss prevention and control, risk retention and risk transfer. The City continually evaluates its risk management program, including its self-insured retention levels, claims frequency and loss trends. Currently, there is a stop loss limit on claim exceeding \$125,000. A reconciliation of changes in the aggregate liabilities for claims (including IBNR claims) for the current fiscal year and the prior fiscal year is as follows:

	Year ended	
	June 30, 2024	June 30, 2023
Amount of claims liabilities at the beginning of the fiscal year	\$ 2,552,465	\$ 1,695,991
Inurred claims	5,469,591	7,553,360
Payments on claims	6,092,282	6,696,886
Amount of claims liabilities at the end of the fiscal year	\$ 1,929,774	\$ 2,552,465

NOTE 18- SUBSEQUENT EVENTS

Subsequent events were evaluated through June 25, 2025, the date of the financial statements were available to be issued.

CITY OF ANSONIA, CONNECTICUT
COMBINING BALANCE SHEET – NONMAJOR SPECIAL REVENUE FUNDS
JUNE 30, 2024

SPECIAL REVENUE FUNDS

Special revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

School Lunch — is used to account for a school lunch program and the federal and state grants that are included within that program.

Community Development — is used to account for community development block grants/small cities program funds which are principally used for developing viable urban communities by providing decent housing, a suitable living environment and expanding economic opportunities, principally for persons of low and moderate income

Board of Education Activity Fund — are used to account for the Student Activities, Student Athletics and other miscellaneous Board of Education related activities.

Police Grant Fund — are used to account for the federal and state grant income and related expenditures.

Library Endowment Fund — The Library Endowment Fund is a permanent fund used to account for donations used for the betterment of the City's library. Monies are restricted for the intended purpose of the donor.
